

Vũ Minh Đức

Date of Birth: 23/10/2003 | vuminhduc231003@gmail.com | 0395584822

PROFESSIONAL PROFILE

I'm a recent graduate with hands-on experience in both frontend and backend development. I worked as an intern at SAVIS and later as a fresher at VNPT-IT, where I was involved in building RESTful APIs using Java Spring Boot and .NET Core, as well as developing user interfaces with ReactJS and Angular. Outside of that, I've also taken on a few freelance projects mostly websites for individuals which helped me get better at working independently and dealing directly with clients. I'm detail-oriented, curious, and always eager to learn. Right now, I'm looking for a position where I can apply what I've learned, take on new challenges, and grow as a developer.

EDUCATION

UNIVERSITY OF TRANSPORT TECHNOLOGY

HA NOI

Electronic and telecommunications engineering technology

GPA 3.24

Expected October, 2025

Relevant Coursework: Software Engineering, Object-Oriented Programming, Data Structures and Algorithms, Database Management Systems, Computer Networks, Embedded, IoT System Design.

Awards & certifications:

- Awarded University Scholarship for Academic Excellence four times
- TOEIC 765

EXPERIENCE

VNPT-IT

HA NOI

Frontend & Backend Developer Fresher

9/2024 – 3/2025

- Engineered and integrated 5+ key features for the VNPT Composable Platform, utilizing ReactJS for the frontend and Java Spring Boot for the backend, improving overall platform functionality.
- Developed responsive and reusable frontend components using ReactJS, Redux, and Axios to support a low-code platform.
- Designed and built RESTful APIs using Java Spring Boot.
- Utilized Docker for containerization and Git for version control and collaborative development.

SAVIS

HA NOI

Frontend & Backend Developer Intern

9/2023 – 12/2023

- Actively developed features for a web-based management system for VTV, implementing business logic with .NET Core and building dynamic, user-friendly interfaces using Angular.
- Developed and maintained user interfaces using AngularJS/Angular, ensuring responsive and interactive web components.
- Built and optimized RESTful APIs using .NET Core, handling business logic and data processing.
- Utilized Docker for environment containerization and Git for version control and team collaboration.

TECHNICAL SKILL

Frontend: ReactJS, Next.js, AngularJS, Angular, React Native, Redux, TailwindCSS, SCSS.

Backend: ExpressJS, .NET Core, Spring Boot (Java).

Database: MySQL, MongoDB, Firebase.

DevOps & Tools: Docker, Git, GitHub, Postman.

Others: WebSocket, RESTful API.
